### OVERVIEW

"I'm a big fan of video editing and keeping only the interesting bits in" - Sarah Vowell

Video editing can seem intimidating, but we are going to teach you how to make a basic video with Canva. They recently came out with more features that you can use to make your videos look like they were made in a professional program without the technicality of those programs. There will be no quiz because video editing is difficult to get the hang of on the first try so I want to give you time to focus on it. If you need any guidance, feel free to reach out to me. Hope you have fun tackling this challenge!
